PROFESSIONAL SUMMARY

Junior Front-End and Full-Stack Developer with a strong foundation in HTML, CSS, JavaScript, React, Node.js, MongoDB, SQL, and UX Design. Experienced building responsive web applications that improve usability, accessibility, and performance using modern Git-based workflows and component-driven design. AWS Certified Cloud Practitioner, with knowledge of EC2, S3, IAM, and cloud architecture fundamentals. Ready to contribute clean, reliable code within a collaborative engineering team.

PROJECT AND PROFESSIONAL EXPERIENCE

Linnium Technologies, LLC — Founder & Full-Stack Developer | Professional | 2024 - Present
- Founded a web development consultancy delivering responsive websites and web apps using HTML, CSS, JavaScript, React, Node.js, Express, MongoDB, SQL, and Figma
- Translated client requirements into scalable UI components and backend features, improving usability, accessibility, and performance
- Used Git/GitHub workflows, QA testing, and modern design systems to deliver production-ready projects

Personal Portfolio Website | Full-Stack Project | 2026
- Built a responsive portfolio using React/Vite, Tailwind CSS, Node.js, Express, MongoDB, HTML, CSS, JavaScript, Figma, and AWS S3
- Created reusable React components, dynamic routing, and REST backend for scalable content management
- Implemented Git workflows and email/contact integrations

Evermark, LLC — Designer & Web Consultant | Professional | 2025
- Generated 400+ UPC barcode labels for products distributed across 2,300 Home Depot stores, ensuring data accuracy and retail compliance
- Updated company website using HTML, CSS, WordPress, and Elementor, improving navigation clarity and product discoverability
- Built an online product catalog to organize product specifications and data

IBC Traffic — Designer & Front-End Developer Consultant | Professional | 2024
- Led redesign of corporate websites using HTML, CSS, JavaScript, Squarespace custom code, and Figma improving usability, accessibility, and mobile responsiveness
- Implemented features including forms, job applications, and email integrations, increasing client engagement
- Applied SEO and analytics tracking to improve traffic and conversions while collaborating with stakeholders on UI improvements

EDUCATION AND CERTIFICATIONS

Bachelor of Science in Information Science (BSIS) | University of Tennessee, Knoxville, TN | Graduated May 2025
Major Concentration: User Experience Design (UXD) Information Science | Major GPA 3.51
Certifications: Amazon Web Services Cloud Practitioner, IBM Full Stack Software Developer, Meta Front-End Developer, Google User Experience Design (UXD)

SKILLS

Programming Languages: HTML5, CSS3, JavaScript (ES6+), Python, SQL

Frameworks & Libraries: React, Node.js, Express, Bootstrap, Pandas, Matplotlib

Databases: MongoDB, Microsoft Access, SQL, Database Design & Data Modeling

Tools: Git, GitHub, Figma, Tailwind CSS, Adobe Photoshop, Adobe Illustrator

Concepts: Responsive Design, UX/UI Design, REST APIs, Agile Methodologies, Scrum, Web Services

Cloud & DevOps: Amazon Web Services, Microservices, Cloud Computing

Development Concepts: Accessibility (WCAG), RESTful Architecture, Component-Based Design, Agile Development, SDLC, Software Architecture
